Authors’ Day 2018

Bibliography of 2017 Works

Celebrated on April 11, 2018

MedStar Health Research Institute
MedStar National Rehabilitation Network
MedStar Washington Hospital Center
MedStar Hospitals/MedStar Health
Authors’ Day 2018

Bibliography

The staff of the William B. Glew, MD, Health Sciences Library are pleased to present the ninth edition of the Authors’ Day Bibliography.

This bibliography includes journal articles, posters, abstracts, book chapters, and books that were published in 2017 by authors affiliated with MedStar Health Research Institute, MedStar National Rehabilitation Network, MedStar Washington Hospital Center, and other MedStar entities. The names of the MedStar authors are in bold type in the citations.

The library staff searched the MEDLINE database for citations where at least one of the authors is affiliated with the MedStar health system. In addition, the bibliography includes citations submitted by the authors to library staff before Friday, March 16, 2018. Library staff and others have made every effort to ensure that the bibliography is accurate. Errors or omissions should be brought to the attention of the library staff before June 1, 2018. The revised version will be posted on the library web site.

Starting in 2014, the information in the Authors’ Day bibliographies was added to the MedStar Authors Catalog database. To search this database, go to the MedStar Authors Catalog found at: http://medstarauthors.org.
